

UV Transilluminators

- *Your safety is our concern !!*
The only Indian UV transilluminators with Genuine UV filters, UV protective shield and Variable intensity

Specifications

Models :	ALUV 20	ALUV 20 A	ALUV 40	ALUV 40 A	AL WHITE	UV Torch	UV College Model Mini	UV College Model -Regular
Filter Size (View area)	21 x 26 cm	21 x 26 cm	21 x 26 cm	21 x 26 cm	20 x 20 cm	-	10 x 10cm	10 x 26cm
Filter Type	Long life filter	Long life filter	Long life filter	Long life filter	-	Long life filter	Long life filter	Long life filter
Wavelength	302 nm	302 nm	302 / 365 nm	302 / 365 nm	White	-	302 nm	302 / 365 nm
Intensity	Single	Variable	Single	Variable	-	Single	Single	Variable
No. of Tubes	4	4	4	4	-	1	2	4
Tube power	15w	15w	15w	15w	-	15w	15w	15w
Genuine UV-blocking cover	Yes	Yes	Yes	Yes	-	-	Yes	Yes
Total Power	60 W	60 W	60 W	60 W	-	15 W	30 W	60 W

High Performance UV Transilluminators for high intensity Performance

Variable-intensity UV transilluminators provide both the highest intensity and the longest sample-preparation time

Special diffusing screen ensures superior light distribution and eliminates confusing light striations
Compatible with photo and electronic video documentation equipment

Alliance transilluminators offer unsurpassed UV intensity and outstanding irradiance uniformity which show what others may miss, even trace amounts of DNA!

The stainless frame prevents any possible UV light leakage and the UV blocking cover fully protects user from UV light exposure during operation.

All models feature long life filters, a special reflector for uniform illumination, a UV treated safety cover, and a steel frame surrounding the filter.

New electronic ballast technique provides supreme light stability and avoids the usual flickering effect, improves gel visualization and documentation.

Variable intensity provides fine adjustment of power for every application and also the best results with any gel documentation system.
